- Conducted CRISPR-Cas9 gene editing experiments on E. coli; independently managing experiment design, execution, and troubleshooting.
- Demonstrated technical proficiency in pipetting, gel electrophoresis, bacterial culturing, and data documentation.

## Community Service

### Vietnam Medical Aid Foundation (VMA) ([vmafoundation.org](http://vmafoundation.org))

**Quakertown, PA**

*Cofounder and Vice President*

*January 2023 – Current*

- Cofounded VMA, a youth-led nonprofit dedicated to supporting children's healthcare in Vietnam, with programs supporting underserved hospitals in Saigon. Expanded the organization to 15 U.S. chapters, coordinating awareness initiatives and volunteer engagement.
- Secured \$5,000+ in donations and 2 PayPal grants, organized food drives collecting 2,000+ items, and launched \$10,000+ fundraising and global expansion initiatives to strengthen healthcare support medical teams in Saigon.

### Saint Luke's Hospital

**Quakertown, PA**

*Volunteer*

*August 2023 – January 2025*

- Completed 150+ clinical hours across ICU, infusion, and OR units, assisting nurses with patient prep, vitals, and room turnover while ensuring strict HIPAA and infection-control compliance.
- Shadowed 20+ physicians across 10+ specialties including neurosurgery, cardiology, and pathology, gaining hands-on exposure to clinical decision-making, procedural protocols, and interdisciplinary care.
- Strengthened communication and patient-relations skills through direct engagement with diverse patient populations and real-time observation of high-acuity medical environments.

## Skills, Credentials, and Interests

### Digital & Creative Tools, Marketing & Outreach

**University Park, PA**

*Personal Interests*

*January 2020-Current*

- Digital & Creative Tools: Website development and management (VMA), Canva, Adobe Firefly, basic HTML
- Marketing & Outreach: Social media growth strategy (scaled The Sci Spot to 11,000+ followers), visual content creation/photography, analytics, and community engagement
- Psychology & Communication: Applied personality frameworks (MBTI, Enneagram, Socionics) to leadership development, team dynamics, and audience engagement
- AI Integration & Workflow Optimization: Applied generative AI in website development, marketing strategy, and project management to automate processes, enhance decision-making, and increase efficiency
